

## Embracing a Better FAD

As sustainable fishing approaches like using non-entangling FADs become more familiar, fishers in ISSF skippers workshops express a growing acceptance of them over time.

### Skipper Acceptance Level of Non-Entangling FADs

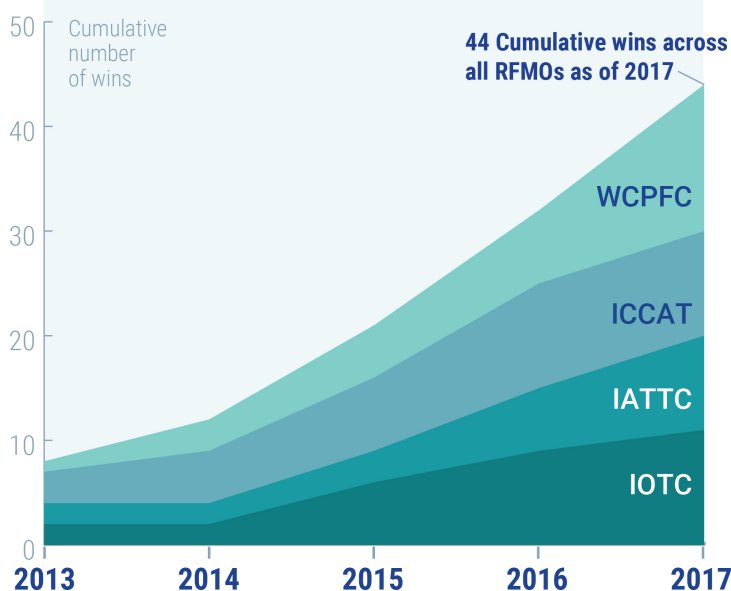

Over Time (previous one-year period)

2013-2017 RFMO Progress on Proposals on:

### Fish Aggregating Devices (FADs)

Note: FAD data collection, FAD management, the FAD working groups, supply vessels, and non-entangling FADs are counted as separate wins.
