

Tropical purse seine fisheries: Current bycatch share by ocean

■ Target Tuna Catch
■ Bycatch

FAD = Fish Aggregating Devices
 FSC = Free School
 DOL = Dolphin

Atlantic Ocean FAD-related bycatch

Source: Observer coverage varies by ocean region. Data from SPC (WCPO), IATTC (EPO), and EU-PS observer programs. Data is 2017 for all oceans, except Atlantic ocean, which is 2016.

Notes: "FAD" to include all associated sets, e.g. sets on natural logs. In the Atlantic Ocean, minor tuna species are retained and utilized; those catches are usually commercialized in African local markets.
